

SREENIVAS K.S

UI DEVELOPER / REACT UI DEVELOPER

Results-driven Web Designer specializing in user-friendly interfaces, UX/UI design, and usability testing. Fluent in HTML, CSS, and JavaScript, delivering high-impact designs that solve real problems

EXPERIENCE

REACT UI DEVELOPER / UI DEVELOPER

Zerone Consulting | 09-Aug-19 - Present | 4 years

Motivated and detail-oriented React UI developer with experience building modular, scalable, and interactive web applications. Proficient in React.js, JavaScript (ES6+), JSX, components, props, state management, and hooks (useState, useEffect). Skilled in React Router for navigation and implementing protected routes for authentication and authorization.

Experienced in UI development with Bootstrap 5, responsive design, and FontAwesome icons. Adept at working with JSON data, creating reusable utility functions, and integrating mock data into applications. Familiar with unit testing using React Testing Library and Jest to ensure robust, maintainable code. Hands-on with performance monitoring using Web Vitals. Strong understanding of component-based architecture, modular code design, and best practices in React development. Comfortable building social-style web apps with login/signup flows, profile management, content exploration, and interactive modals/popups.

Key Skills & Technologies:

- React.js, React Router, JSX, Components, Props, State, Hooks
- JavaScript (ES6+), JSON data handling, Utility functions
- Bootstrap 5, Responsive Design, FontAwesome Icons
- Protected Routes, Authentication & Authorization
- Unit Testing: React Testing Library, Jest
- Performance Monitoring: Web Vitals

HTML | CSS | SCSS | TAILWIND CSS | BOOTSTRAP | REACT | JQUERY | JAVASCRIPT
VUE.JS | CHAKRA UI | CSS IN JS | WCAG | BEM AND OOCSS | SHOPIFY | SEO | GSAP

EDUCATION

BACHELOR OF COMPUTER SCIENCE

M.G University| 2016 - 2019

PROJECTS

Property Management Websites

Technologies : HTML, CSS, SCSS, Bootstrap, JQuery, Javascript, Tailwind CSS

The primary contributions to this project involve the development of responsive HTML templates for real estate agents, with a significant focus on creating a mobile-friendly app. Additionally, a data visualization template for account portals was developed to enhance user engagement and accessibility.

React project : Dashboard template

Technologies : HTML, CSS, Bootstrap, React , CSS in JS,

Due to the pooled management of tasks, project involvement varies significantly. Common responsibilities include HTML conversion, responsive design, form validation, and dashboard development.
